

ABOUT OUR SUMMER SCHOOL

The University of Toulouse, in partnership with the Cancer Research Center of Toulouse (CRCT), the Canceropôle Grand Sud-Ouest (CGSO) and the Pierre Fabre Laboratories, offers an intensive short program on Oncology and Dermatology in Toulouse for summer 2024.

This summer school will provide a better understanding of fundamental and clinical research on skin pathologies including melanoma, as well as applied research, which aims to develop products by the pharmaceutical industry.

It will be also the opportunity to explain the processes and professions involved in the pharmaceutical research and the development of a treatment in oncology, as well as the research and development of a dermo-cosmetic product for patients suffering from an inflammatory pathology or cancer.
