Toulouse, the best place to study in France*

All you need is Toulouse!

Toulouse is ideally located in the heart of South Western France, between the Mediterranean Sea, the Atlantic Ocean and the Pyrenees Mountains.

A vibrant, cosmopolitan city with a dynamic industrial sector, it is home to France's 4th largest student population. It is also a major centre for heritage, culture and festivals, known as la ville rose for its historic brick buildings.

Take part in internationally renowned research

Top-ranking research centres

15
Doctoral
schools

4500
PhD
students

40%
come from
abroad

850
PhD degrees
per year

The Université Fédérale Toulouse Midi-Pyrénées is home to **top-ranking research centres** covering all areas of the sciences and technology, the humanities and social sciences.

You will study for your PhD in a research centre of **international standing**, under the supervision of **highly qualified scientist**. The PhD usually involves a 3-year contract with the University, a company, research organization or other institution.

You will write a thesis based on your research, which you will defend in an oral examination that can be held **entirely in English**.

PhD candidates have access to

- A comprehensive on-line guide providing practical information: www.univ-toulouse.fr/ariane
- A wide range of non-disciplinary **training programs** in English, available to all PhD students and specifically adapted to their needs.
- A dedicated **PhD international office**, providing information, advice and support for PhD candidates wishing to study abroad and international students wishing to enrol on a PhD program at the Université de Toulouse.
- **A career service** helping PhD graduates to launch their professional career at the highest level and promoting the value of the PhD qualification beyond the academic sector.

The Université Fédérale Toulouse Midi-Pyrénées helps all international PhD students adapt to their new environment with the **"Toul'Box"**, offering language classes in French and English, help finding accommodation, excursions in the local region and much more!

Applying for a PhD: eligibility and procedure

- You must hold a degree equivalent to a Bologna compliant Masters degree (5 years of Higher Education/300 ECTS) with research experience.
- Making an application: send your CV and letter of application including a brief description of your research project to : phd-international@univ-toulouse.fr
- The PhD international office will help you to find doctoral school and thesis supervisor.
