The Occitanie Region commits to

RECONCILING EXCELLENCE AND DEMOCRATISATION OF ACCESS FOR STUDENTS TO HIGHER EDUCATION

The Occitanie region has adopted a new regional scheme for higher education, research and innovation which will mobilise €110M to enable, among other things, the democratisation of access for young people to higher education, the dissemination of innovation and scientific culture to companies and the promotion of technology transfer between research institutions.

The region promotes a site policy, by reinforcing the university centres in the metropolitan areas of Toulouse and Montpellier and by strengthening the development of university cities with balanced territorial, economic and social cohesion.
The entry into student life, or moving to a new city to continue your studies, requires a series of important steps: finding accommodation adapted to your expectations is often the first of them, once you have chosen your establishment.

To simplify this often complex process, we offer you an enriched housing guide, which supplements the general Student Guide that we have offered for the past 12 years.

You will find the main public sector residences, mostly supported by the Occitanie Regional council: the CROUS complexes and residences, student residences run by social housing organisations - “HLM” - and habitat jeune residences offered by the Regional Union for Youth Habitat (URHAJ Occitanie).

You will also find advice for each step (finding lodgings, moving in, departure) and a series of useful contacts for sharing, intergenerational accommodation, furnishings, etc.

For more advice and personalised answers to your questions, we are also at the Welcome Desk, 41 allées Jules Guesde, with our key partners and in particular the Welfare and Benefits Office (CAF) of the Haute-Garonne.

If you can’t come to us, log on to the welcomedesk.univtoulouse.fr website: you will find all kinds of useful information.

Happy flat hunting and have a great time studying in Toulouse!

Looking for accommodation: 
don't leave it until the last minute!

**APPLICATION FORM**

Get all the papers together to create your rental dossier:
After the results of your baccalaureate/A Levels and when it is time to go to University, you won't be the only one searching for accommodation, so improve your chances by going on visits with your completed application form to save time!

The list of documents you will most often be asked to produce:
- the photocopy of your ID card, passport and residence permit,
- your student ID card or certificate of enrolment,
- proof of address, less than three months old if you already have an address, your RIB - bank details.

The list of documents your guarantor must provide (or certification of eligibility if your guarantor is an organisation, see table page 18-19):
- their last three pay slips and an attestation from their employer, proof of address less than
- three months old if you already have an address,
- their ID, their latest tax statement.

**BUDGET**

Determine your budget for the 1st month and the rest of the year:
It is important to know your budget in advance and the costs you will have each month in order to choose accommodation that will be within your means. Prepare a sum of money to cover your initial living costs when you first arrive and have enough to pay for any other obligatory costs during your installation in your new accommodation.

In the 1st month you must pay: the 1st month’s rent + the security deposit + agency fees/dossier fees + furniture if needed.

The rest of the year: any bills for gas/electricity and Internet which are not included in the rental agreement (generally all these costs are already included in your rent if you are in a student residence); don't forget to take into account the other costs which are not related to your accommodation: studies, transport, shopping, as well as your leisure activities, etc. (see the budget table on page 18-19)

If you have accommodation on the 1st January you must pay the **taxe d’habitation** (council tax) for this accommodation (usually in November). If you have made your own income tax declaration, the tax authorities will automatically calculate any reductions in taxes that you might be able to benefit from (reductions and thresholds are based on your income).
If you are still part of your parents’ tax household, you can ask for tax reductions by contacting your local tax office and by sending them a copy of your parents’ tax statement.

You will not have any tax to pay if you live in a university hall administered by the Crous, in a student residence, or if you occupy a furnished room in a private home.

Please note, when you receive this council tax, check if they ask you to pay the TV licence (the contribution for public television). If you don’t have a television, you don’t have to pay this.

You can contact or visit the tax service at the address which is on your council tax notice.
Various tips

✓ Do not underestimate the time it will take to get from your home to where you study.

✓ Never pay in cash and don’t hand over any money for rent or security deposit before signing the lease.

✓ Do not go through “list brokers” who offer you a list of houses in exchange for money, but without any guarantee of finding accommodation.

✓ Don’t wait until the day before you start to find a place to live.

✓ At the beginning of the university year, the housing offers are more scarce and your research will become a true obstacle course.

✓ It is better to reserve accommodation and pay rent for a few extra weeks even if you are not living in it… The best time to find accommodation is between the exam results and mid-August at the latest.

⚠️ Warning!
A room of less than 9m² is not considered as an accommodation and you cannot get housing benefits!

Types of accommodation

PRIVATE ACCOMMODATION
It is open to all students. The accommodation belongs to a private individual and the rental agreement is made directly with the owner or via a property management agency. The accommodation can be rented either furnished or unfurnished. Consult page 54 of the guide.

ACCOMMODATION IN A CROUS
These are primarily for students who receive a French government grant (BGF), as well as international students registered for a Masters 2 or Doctorate. If you wish to have a place in a Crous residence, you will need to apply very early. Applications are between mid-January and the end of May, but don’t wait until the end!

www.messervices.etudiant.gouv.fr

International students must contact the international relations service of their establishment.

Find the Crous residences in this guide!

A ROOM IN A PRIVATE HOME
This is open to all students. You have a bedroom in a private home and share with the owner (and family) the kitchen and bathroom. Some share other living spaces, others not. Just as some offer packages with breakfast and the evening meal, others do not. The rental agreement must list any services. Consult page 55 of the guide.

SOCIAL HOUSING
Social housing, also called HLM, is accommodation run by social housing organisations (such as Promologis, le Groupe des Chalets, Colomiers Habitat, S-A Patrimoine, Toulouse Métropole Habitat, etc.). Social housing can be a room, a studio, a two-room flat, etc., either in a residence or not. Send your application directly to the residence (quicker) or apply via:

www.demandelogement31.fr

Don’t wait until the day before you start to find a place to live.

At the beginning of the university year, the housing offers are more scarce and your research will become a true obstacle course.

It is better to reserve accommodation and pay rent for a few extra weeks even if you are not living in it... The best time to find accommodation is between the exam results and mid-August at the latest.

⚠️ Warning!
A room of less than 9m² is not considered as an accommodation and you cannot get housing benefits!
Once you have found your accommodation

Before you can unpack your bags and move into your accommodation, there are still a few more steps to complete.

**HOME INSURANCE**

Once you have found your accommodation and before you meet the landlord (owner) to collect the keys, you should take out a home insurance policy. This is **obligatory** and will protect you from a variety of risks. It can be obtained with a mutual insurance company, a bank or a private insurance company. If you are sharing, each person must take out home insurance.

**Advice:** choose an insurance policy which is multi-risk and includes third-party responsibility.

**THE GUARANTOR**

The guarantor agrees to pay the rent and the bills if the person renting the accommodation is unable to do so. The guarantor should be solvent, that is to say they can prove that they dispose of sufficient income and are capable of meeting this cost and this responsibility. It is required by the majority of owners and agencies. If there is no one who can be the guarantor for you, you can request the aid of Visale (see table page 18).

---

If you are without a temporary emergency accommodation solution and if you do not find help around you or from the social services, call 115 to make sure you don’t sleep in the street.

---

**URHAJ RESIDENCES**

The Habitat Jeunes residences of the Union Régionale pour l’Habitat des Jeunes (URHAJ) welcome young people aged 16 to 30 who are employees, apprentices, students, trainees or unemployed people receiving benefits. Several types of furnished accommodation are offered (bedroom, studio, 1-bedroom flat, etc.) and it is possible to live alone or to share. In the Habitat Jeunes residences, support, workshops or other activities are proposed to the residents.

[www.habitatjeunesoccitanie.org](http://www.habitatjeunesoccitanie.org)

---

**SHARING**

Consult pages 14 and 55 of the guide.

**LA KAPS**

La Kolocation à Projet Solidaire by the AFEV. Consult page 55 of the guide.

**INTERGENERATIONAL SHARING**

Consult page 54 of the guide.

**TEMPORARY ACCOMMODATION**

Consult page 55 of the guide.
If you do not meet their criteria to benefit from their guarantee services, you can get information from a bank or talk directly with the landlord to see if you can pay several months in advance.

**The Security Deposit**
You will then have to pay the “caution” (security deposit), which for unfurnished rentals is normally one month’s rent before any charges for bills and two months’ rent for a furnished rental. This will be returned to you when you leave, minus the cost of any damage to the accommodation. These mechanisms can help you pay your security deposit: the LOCA-PASS advance and Instal’Toit (see table page 19).

**Inventory**
The day you get the keys, you will complete an inventory - état des lieux - of the accommodation. This is a complete description of the accommodation, written in 2 copies in a very precise and predetermined format.

It is very important to note and even describe any and all visible damage, even slight, and to keep your copy safe until the day that you leave the accommodation. If on the day you leave the accommodation, the inventory is as it was on the day you arrived, the security deposit will be returned to you within a maximum of one month. If the inventory is not the same, the maximum time period is two months (see page 15). You can now sign two copies of your rental agreement (also called a bail) and collect the keys for your new place!

**Tip:** ask the landlord to provide you each month with quittances de loyer - rent receipts: these prove that you have paid and could be useful to you in some administrative processes. It’s not over yet! There is still a bit more to do…

**The CAF**
Housing benefits from the Caisse d’Allocations Familiales.
When you rent your accommodation, whether you are a French or foreign student, you can request housing benefits from the CAF. You will receive your payment monthly (see table page 19).

**Setting Up Services**
As soon as you have moved into your new accommodation, you will need to set up an account for services such as electricity and/or gas, Internet, etc.
Generally, if you are living in a university/student residence or renting a furnished room in a private home, these costs are fixed and included in your rent.

**Tip:** at the time of the inventory, ask who the suppliers were for energy and the Internet used by the previous tenant; this will make it easier for you when you take on the service contract.

The Toulouse city hall can help you settle into your new life in Toulouse thanks to financial aid from Instal’Toit, an advance without interest of €100 to €500 (consult the table of financial aid on page 19).

Now you have caught your breath, it’s time to move in! In order to save some money when furnishing your home, there are associations, student initiatives and organisations which can help you do it on the cheap. Consult the chapter “Furnishing, think recycling!” page 56.
The case of shared accommodation

Living in shared accommodation is the choice of living in a larger property with one or more other persons. Sharing the common spaces such as the living room, the kitchen and the bathroom, but also and above all... Sharing the rent and the bills!

It is therefore one of the cheapest accommodation solutions available, but it doesn’t suit everyone: you have to want to share things every day...

There are no pre-defined rules and the methods vary from one landlord to another. But be aware that it is important that you be included on the rental contract (lease). If you join an existing shared accommodation, an amendment to the lease should be made.

Two types of leases exist for this type of accommodation: single and individual. The single lease on which all the flatmates are named, but be careful of the solidarity clause which binds all flatmates together until the end of the contract!

This clause means that if you leave the accommodation before the end of the contract, and those who remain don’t pay the rent, you remain responsible. This clause ends 6 months after the end of your notice.

With an individual lease for each flatmate, this clause doesn’t exist; however, it is the owner who chooses the other flatmates and not you.

Work-study contracts / apprentices

Action Logement helps young people under 30, who are on a work-study contract, in their search for accommodation and in their payment of rent through the Mobili-Jeune scheme, which allows for the payment of part of the rent up to €100 per month.

Make your request online 3 months before the start of your work-study contract or at the most 6 months after the start:
https://alternant.actionlogement.fr/

The Carte Jeune of the Occitanie regional council helps with accommodation for apprentices. This is a flat annual rate based on taxable income. This benefit is for students with two places to live who do not receive CAF benefits for their second accommodation. This benefit is only accessible via a network of accommodation structures approved by the regional council (the request must be made between the months of June and January) on this site:
www.laregion.fr/-Le-Site-Jeune
Leaving your accommodation

You have finished your studies, you wish to move into shared accommodation, with a partner or to a bigger flat... In any case, moving out means respecting certain rules and not forgetting to end your contracts or to notify your change of address!

**GIVING NOTICE**

You can terminate your rental contract at any time, on condition that you respect the notice period of one month in Toulouse (please note that this notice can be up to 3 months in some other towns)... To give notice, you must send a recorded delivery letter (lettre recommandée avec accusé de réception) to the landlord. To do this, you will need to go the Post Office and pay a fee of €4.

**LEAVING INVENTORY**

This is completed, with the landlord, the day you leave the accommodation, in order to note any damage. The accommodation must be returned in the condition in which you found it. This état des lieux de sortie must, since June 2016, take into account normal wear and tear due to time and use of your accommodation.

**REIMBURSEMENT OF THE SECURITY DEPOSIT**

This inventory will be compared to the original to establish if the landlord can claim costs for any repairs to the accommodation (if that is the case it should be justified by bills or estimates). Only certain costs may be claimed (holes in the walls, lack of upkeep, etc). If the two inventories are the same, the landlord has one month to return the security deposit to you, or two months if there are differences.

**TERMINATING SERVICE CONTRACTS**

Before leaving your accommodation or Toulouse, remember to terminate any service contracts you have taken out, such as electricity, gas, Internet, etc. Tip: before you finally leave your accommodation and contact your service providers to terminate the contracts, remember to read the meters and note down the figures.

**CLOSING YOUR CAF ACCOUNT OR MAKING A CHANGE OF ADDRESS**

You can do this via the Internet or directly with the office in Toulouse at the Welcome desk. You will need your numéro d’allocataire - allocation number.

**CLOSING YOUR HOME INSURANCE POLICY**

You do this by recorded delivery letter at the Post Office (€4), including a copy of your leaving inventory.

**ACCOMMODATION IN PRIVATE HOMES:**

**Consult private offers:**
Many private individuals offer accommodation for students, particularly furnished accommodation.
From the month of May, many students begin to leave their accommodation. It is from this time until the end of July that there are the most adverts for bedrooms, studios, 1-room units, large studios or large flats for sharing.
The price of the rent depends on the size of the accommodation and its location, but don’t forget that all students have the right to housing benefits. On average the price of a 1-room unit in the city centre varies from €420 to €550.

You can consult:
The CRIJ offers: at 17, rue de Metz - 31000 Toulouse from 10 am to 12.30 pm and 1.30 pm to 6 pm or at www.crij.org

Don’t forget the student life advice centre within your establishment!
Université Toulouse 3 Paul Sabatier students can consult the list of accommodations on the site http://housing.univ-tlse3.fr/fr

**INTER-GENERATIONAL ACCOMMODATION:**
Also called inter-generational sharing, this consists of a student living in the home of a “senior” who has empty rooms in their home. This type of accommodation, which is developing rapidly, has advantages for the student who, in exchange for some more or less significant help, benefits from a low rent or sometimes free accommodation, while the “senior” has the reassurance of company and an and no longer feels isolated.

In Toulouse, two associations offer intergenerational accommodation:

- **Sharing with Projet Solidaire Kap’s:**
  At the start of each academic year, the AFEV Toulouse, the city’s Students Foundation Association, offers places in the Kaps - kolocations à projets solidaires.
  - ✔ 24 places in shared, furnished accommodation (3- to 6-room units)
  - ✔ 1 common area, laundry and bicycle storage
  - ✔ Places for 70 students (and only students)
  - ✔ The residence is located 3 minutes on foot from the UT2J, 15 minutes from the city centre (Metro A, Mirail U stop) and 30 minutes from the other university campuses

- **In private university halls:**
  The private university halls propose additional services compared with other student residences, so the rents are correspondingly higher. Certain private student halls offer shared accommodation. All the residences are at [www.adele.org](http://www.adele.org)
  ✔ Rent between €235 and €254 all charges included (before deduction of housing benefits)
  ✔ 5 hours of commitment per week from September to June (2 hours helping a child or young person and 3 hours for a solidarity project)

  Being a kapseur is to put your energy and creativity at the service of an innovative project, compatible with studies close to home, and to participate in activities with locals and partners around a variety of themes (education, the environment, events, culture, sport).

  Motivated? You can find more information on the koloc solidaire site and register to be contacted! [kolocsolidaire.org/toulouse](http://kolocsolidaire.org/toulouse)

**Furnishing: Think recycling!**

Not all students can or want to live in furnished accommodation. But furniture is expensive, especially when you have paid the security deposit, the first month’s rent, etc.

Fortunately, there are ways of spending less money while being ecological and respecting the environment!

**LE TRI SERA TOP - La Ressourcerie du Mirail**
This association of students from UT2J aims to reduce waste and raise environmental awareness. To achieve this, they offer to collect objects and give them a new life (be that through cleaning, repairs or the creation of a new object); these objects are then sold, donated or recycled.

The resource centre is made up of a sales space where you can find what you need without spending too much money. When you move out, you can then bring your own objects back to the association to be used by other students like you! The Tri Sera Top also proposes workshops and organises events.

**THE ENVIE NETWORK**
Envie is a network of social enterprises which will allow you to equip yourself with second-hand electrical goods. When you buy a fridge, an oven or a cooker in one of the network’s shops, you are supporting a reinsertion project, helping to reduce consumption and waste, and saving money!

CONSULT PRIVATE OFFERS:

Many private individuals offer accommodation for students, particularly furnished accommodation.

From the month of May, many students begin to leave their accommodation. It is from this time until the end of July that there are the most adverts for bedrooms, studios, 1-room units, large studios or large flats for sharing.

The price of the rent depends on the size of the accommodation and its location, but don’t forget that students have the right to housing benefits.
Offers at www.pap.fr
Offers at www.leboncoin.fr:

Be wary of offers which are “too good to be true!” You can spot these offers by the professional photographs + a low rent + and the absence of a contact telephone number. It can happen that you are asked to make a deposit to reserve the accommodation. Be careful you don’t fall into this trap!
CONSULT FLAT-SHARING OFFERS
